2. If the fee calculation is based on the nominal or market price of a DS in a foreign currency, the last known exchange rate issued by the Czech National Bank as of the day the fee is calculated is used for the conversion.
3. If the fee calculation should be done based on the nominal value but the DS has not the nominal value, the nominal value shall be substituted by the value of the share determined by the number of DS on the issue volume, resp. registered capital, in the appropriate currency.

4. If the fee calculation should be done based on the market price and the DS is listed on a market operated by PSE and simultaneously on another regulated or non-regulated market, the latest known market price published by PSE is used for the fee calculation. IF the DS is listed on a market operated by RM-SYSTEM and it is not simultaneously listed on a market operated by PSE, the latest known market price, published by RM-SYSTEM, is used.
5. If the market value a foreign DS listed on any market operated by PSE or RM-SYSTEM that is not registered in the issue register of CSD, is lower than a default value stated in the Annex 1 of the Tariff, the market value is substituted in the calculation of respective fees by this default value. The default value is also used in case of foreign DS that is not listed or whose trading on a regulated market has been suspended for longer period of time. This does not apply to foreign dematerialized bonds where the nominal value is proceeded with, as stated in Tariff 3.8 letter c). In case the default value has not been published in the Annex 1 of the Tariff, CSD reserves the right to publish default value in the the Bulletin at least 5 business days before the effectiveness and reflect the change to the Annex 1 of the Tariff with the next amendment of the Price List. In case that Central Depository applies market price for calculation of the fee even though it is lower than the default price, publishes this information in the Bulletin.
6. If a foreign DS that is not registered in the issue register of CSD is listed on a foreign regulated market and it is not listed on a market operated by PSE or RM-SYSTEM, CSD sets a substitute value of the DS for the purpose of fee calculation. CSD sets the substitute value on a regular basis in the form of its publishing in the Bulletin; this is done at the end of a calendar month with the effect as of the next calendar month. In order to set the substitute value, CSD reflects the market value of the foreign DS, published by the foreign market on the 20th day of a calendar month; the average of published market prices in case of a foreign DS listing on more markets (2 most important markets based upon number of DS listed). The substitute value set this way cannot be lower than the default value mentioned in the Annex 1 of the Tariff.
7. CSD sets its default price for the purpose of a fee calculation and publishes it in the Bulletin.

The daily fee is arithmetically rounded to nearest crown (if a daily fee is less than CZK 0.5, the fee is not collected). When the volume is above CZK 10 mil, more coefficients are applied within the calculation, e.g. for listed dematerialized shares of the volume CZK 150 mil is the daily fee (P) calculated as follows: $P = (\text{CZK } 10 \text{ mil} * 0,0005 + \text{CZK } 90 \text{ mil} * 0,0002 + \text{CZK } 50 \text{ mil} * 0,0001) / 360$ $P = (5\ 000 + 18\ 000 + 5\ 000) / 360 = 28\ 000 / 360 = 77,77 = \text{CZK } 78$ Note: Slovakian DS registered by CDCP SR, a.s., belong to this category of fees</p>			Volume of securities on the account (O)	(k)	(n)	(d)	Volume up to CZK 10 mil	0.0005	0.001	0.00005	Volume above CZK 10 mil up to CZK 100 mil.	0.0002	0.0005	0.00005	Volume above CZK 100 mil up to CZK 1 bln	0.0001	0.0003	0.00004	Volume above CZK 1 bln up to CZK 2 bln	0.00005	0.0002	0.00002	Volume above CZK 2 bln	0.000045	0.00015	0.000016
